SUMMARY

Computer Engineering student at Mapúa University with experience in programming instruction, web development, and student leadership. Interested in artificial intelligence, machine learning, and software development, with a focus on building practical solutions and continuously developing technical skills. Aboitiz Future Leaders Scholar, IEEE-MUSB Web Developer, and Peer Adviser committed to learning, collaboration, and service.

EXPERIENCE

Software Engineering and Data Analytics Instructor

OneCodeCamp

September 2024 - March 2025, Sydney, New South Wales, Australia

- Led 10+ cohorts in Front-End Development covering HTML, CSS, JavaScript, Git, and GitHub.
- Taught foundational Data Analytics using Python, SQL, Pandas, and Matplotlib.
- Mentored students through hands-on projects, contributing to a 100% completion rate.
- Developed educational content including programming tutorials published on the organization's YouTube channel.

EDUCATION

Bachelor of Science in Computer Engineering

Mapúa University • Intramuros, Manila

CERTIFICATIONS

NVIDIA Fundamentals of Deep Learning

Mapúa University • 2025

Introduction to Generative AI and Prompt Engineering

Mapúa University • 2025

Data Science Math Skills

Duke University • 2025

- Covered essential mathematical concepts for data science, including probability, statistics, and linear algebra, laying the groundwork for machine learning.

INVOLVEMENT

Peer Adviser

Mapúa University Center for Student Advising (CSA) • June 2026 - Present

- Selected to serve as a Peer Adviser supporting student engagement and academic support initiatives.
- Assist fellow students by connecting them with university resources and support services.
- Participate in mentoring and community-building activities organized by the Center.

Web Developer, Research and Development Committee

IEEE Mapúa University Student Branch • March 2026 - Present

- Elected as Web Developer under the Research and Development Committee.
- Collaborate with officers and committee members on the organization's web initiatives and technical projects.
- Support the planning and development of digital resources for members.

Aboitiz Future Leaders Scholarship Program

Aboitiz Foundation, Inc. • December 2025 - Present

- Selected as an Aboitiz Future Leaders Scholar based on academic performance, leadership potential, and community involvement.
- Chosen as batch representative speaker during the Memorandum of Agreement Signing Ceremony.

SKILLS

Programming: Python, JavaScript, SQL

Web Development: HTML, CSS, JavaScript, Git, GitHub

Data and AI: Pandas, Matplotlib, Jupyter Notebook, Basic Machine Learning Concepts
